We insure the healthcare costs of pets

Every pet deserves

Why insure your pet?

Every pet offers love and companionship and is truly a part of your life.

Naturally, you don't consider every day that your pet can also become ill or get into an accident. And that the costs for

medication or an operation can easily go into the hundreds or sometimes even thousands of euros. At moments like these, you don't want to be forced to choose between your pet and your wallet. That's why it's recommended to have your dog, cat, rabbit or parrot insured.

Rosa

Maltese cross

“Our Maltese dog Rosa had been insured by Petplan for years. She seemed completely healthy. I sometimes jokingly told my husband: should we cancel that insurance? Until this year, when it turned out she had a serious kidney condition. This year alone, the costs already went up over €1,900. So glad we're insured!”

Jack

Jack Russel

“During a walk, Jack suddenly started limping. We observed it for a while and then decided to go to the vet. The vet examined the leg and immediately wanted an X-ray. Jack's ligament was torn and had to be repaired with surgery. Lucky, we had taken out an insurance, because the total was € 1,585.”

Tommy

European Shorthair

“Tommy hadn't been himself for a while. He didn't want to eat and hid from me. Worried, I went to my vet. The first examinations didn't provide an answer. Eventually, the vet decided to do an ultrasound, which immediately showed the problem. Tommy ate a wooden skewer! Thankfully, this could be fixed with surgery and Tommy is his old self again!”
