What happy pet owners have to say about Petplan!

Jack

Jack Russel Terriër

"During a walk Jack suddenly started limping. We kept an eye on it for a while and eventually decided to take Jack to the vet. During the examination of his leg the vet immediately wanted to do an X-ray. Jack suffered from a torn ligament and needed surgery. Luckily Jack was insured because all in all costs were well over € 1.500,-"

Mariëtte de Boer

Coevorden

Tommy

European Shorthair

"Tommy hadn't been himself for a while. He wasn't eating and was hiding from me. I got worried and took him to my vet. The first examination didn't reveal anything, so the vet decided to make an ultrasound. The problem immediately became clear. Tommy had eaten a wooden skewer! Thankfully the skewer was removed by surgery. Now he's back to being his old happy self again."

Felix Verbakel

Roermond

Floor

Holland Lop

"Our rabbit Floor wasn't eating properly for a while. We thought her stomach bothered her, but after visiting the vet it turned out she had dental problems. Treatment is easy while she is under anaesthesia, but rabbit teeth and molars keep on growing. This means that we have to go back to the vet every two months, which is costing us a lot of money. Fortunately our insurance covers most of the costs."
